

401K Growth (70-30)

As of 9/30/2025

Investment Strategy

Targets a 70/30 equity to fixed income asset mix focused primarily on Capital Growth and secondarily generating limited Balanced Income. The portfolio seeks capital growth. Income generation is a secondary objective intended to help reduce volatility over time. The portfolio exhibits limited long-term volatility and is intended to out pace inflation. Investment Time Horizon: 7-10 Years

With over \$1 billion in Managed Assets (as of 12/31/2018), the firm manages equity, fixed income, and asset allocation strategies for individual and institutional investors.

Performance Disclosures

Performance results reflect time-weighted rates of returns based upon TTC's Risk Based allocation strategies and rebalancing methods. Performance results reflect the reinvestment of dividends and other earnings, but are calculated prior to assessment of TTC fees.

Past performance may not be indicative of future results, and the performance of a specific individual account may vary substantially from performance presented herein. In calculating account performance, TTC has relied upon information by various sources believed to be accurate and reliable but cannot be guaranteed. Investments in equities, fixed income, mutual funds, and exchange traded funds involve risk and may lose value.
